Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 09/719,158	Applicant(s) TAKEUCHI, SHIGEKI	
	Examiner Seung C. Sohn	Art Unit 2878	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 February 2005.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-14 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-14 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 28 February 2005 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☒ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☒ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☒ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on February 28, 2005 has been entered.

Claim Objections

2. **Claims 12 and 13** are objected to because of the following informalities:

On claim 12, lines 4-5, "the gate" should be changed to – the gate device – for clarity.

On claim 13, line 4, "a open" should be changed to – an open --.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. ***Claims 1-4, 9 and 13-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Townsend (Patent No. US 5,675,648).***

Regarding claims 1-4, 9 and 13-14, Townsend shows in Fig. 5 the following elements of Applicant's claim:

- a) a photon pair source (4, i.e., laser pump and 5, i.e., non-linear crystal) for generating a pair of photons consisting of a signal photon and an idler photon which are corrected in time of generation each other;
- b) a photon number detector (6, i.e., photodetector and gate control) for detecting a number of the idler photons;
- c) a gate device (7, i.e., gate) for controlling an emission of the signal photons;
- d) a controller (6, i.e., photodetector and gate control) for controlling the gate device in response to a photon number information from the photon number detector (Col. 5, lines 20-30).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. ***Claims 5 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Townsend (Patent No. US 5,675,648) in view of Watanabe (Patent No. US 6,307,984).***

Regarding claims 5 and 6, Townsend shows the claimed invention as above, but is silent that said nonlinear optical medium on which the pumping light is incident comprises a waveguide channel type or a pseudophase matching type nonlinear optical medium. Watanabe discloses a waveguide channel type or a pseudophase matching type nonlinear optical medium (Col. 13, lines 10-21). It would have been obvious to a person having ordinary skill in the art to provide a waveguide channel type or a pseudophase matching type nonlinear optical medium of Watanabe in the device of Townsend for the purpose of providing good phase consistency.

7. Claims 7-8 and 10-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Townsend (Patent No. US 5,675,648) in view of Kim et al. ("Multiphoton detection using visible light photon counter" published on February 15, 1999).

Regarding claims 7-8 and 10-12, Townsend shows the claimed invention as above, but does not disclose a pulse height discriminator. Kim et al. discloses a pulse height discriminator (Col. 1, 2nd paragraph). It would have been obvious to a person having ordinary skill in the art to provide a pulse height discriminator of Kim et al. in the device of Townsend for the purpose of overcoming thermal noise.

Conclusion

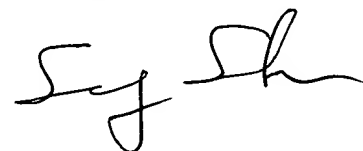

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Seung C. Sohn whose telephone number is (571) 272-

2446. The examiner can normally be reached on Monday through Friday from 8:30 am to 5 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Porta can be reached on (571) 272-2444. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
